

Abstract index

Biocryoiimmunology — a new scientific revelation in bioscience and medical practice. V.I. Nahrebetskyi, F.O. Prytkov, O.V. Tsurikova, N.N. Korpan	231
Wharton's jelly tissue cryopreservation for efficient mesenchymal stromal/stem cell retrieval. R.A. Obushko, N.A. Trufanova, O.B. Revenko, O.Yu. Petrenko	231
Cryopreservation of equine and canine monocyte derived dendritic cells. T. Deeb, F. Schwebe, C. Winkler, C. Dettmer-Richardt, D.E. Rebeski, B. Glasmacher	232
Cryopreservation of fish embryos: insights from <i>Cyprinodon variegatus</i> . R. González, F. Rocha, E. Paredes	232
Vitrification of male gametes — our experience. L. Gaydarova, E. Hristova, P. Todorov	233
Enhancing seed supply in mussel aquaculture: a cryopreservation study using two cooling systems. A. Meis-Solla, A. Iglesias, J. Alberto de Santiago-Meiide, J. Souza Troncoso, E. Paredes Rosendo	233
Cryoresistance and potential vitrification in lichen thalli. J. Jr. Sekerák, J. Hájek, M. Barták, J. Zámečník, M. Faltus, A. Puhovkin, I. Parnikoza	234
Optimization of the conditions for the formation and cryopreservation of compatible spheroids of rat mesenchymal stem cells and neural cells. O.R. Maiorova, O.M. Sukach, O.V. Ochenashko, S.O. Vsevolodska	234
Engineered microenvironments for MSCs storage at ambient temperature in alginate core-shell capsules. O.S. Hubenia, S. Leal-Marin, N.A. Trufanova, B. Glasmacher, O.Yu. Petrenko	235
Effect of pre-chilling on ovarian tissue. E. Teas, K. Fowler, N. Kuscu, P. Kilbride, S.A. Williams	235
Cryotechnologies in animal breeding: EU experience and opportunities for Ukraine's integration. A.O. Bogdaniuk, T. Otter, M.P. Petrushko	236
Enhancing cryopreservation of organoids via diffusion kinetics analysis using Cryo-Raman microspectroscopy. S. Altmaier, F. Stracke, I. Meiser, J.C. Neubauer, H. Zimmermann	236
Cell-tissue therapy of fetoplacental origin in recurrent implantation failure and chronic endometritis: a clinical case report. L.A. Konoplia, A.O. Feskova	237
Design of a fluidic chamber for the analysis of diffusion CPA/VA in a single cell using Raman microscopy. O.S. Hubenia, R. Tewes, S. Leal-Marin, C. Winkler, A.-R. Iddi, B. Glasmacher	237
Confocal microscopic imaging of sperm cells: a step toward optimised directional freezing protocols. A.-R. Iddi, M. Sinram, S. Leal-Marin, C. Winkler, F. Will, O. Hubenia, R. Tewes, B. Glasmacher	238
From traditional to sustainable: new materials for polymer electrolyte membranes. R. Tewes, B. Glasmacher	238
Dependence of posthypertonic hemolysis of initial state of canine erythrocytes. O.O. Chabanenko, N.A. Yershova, N.M. Shpakova	239
Encapsulation-based strategies for enhanced ovarian vitrification: experimental design and research rationale. E. Zand, G. Zhao	239
Possible use of sucrose for pretreatment and subsequent cryopreservation of newborn rats' brain-derived neural cells. S.O. Vsevolodska, O.V. Ochenashko, O.R. Maiorova, O.M. Sukach	240
The influence of the implant of cryopreserved placenta tissue on morphofunctional state of recipient's placenta. O.O. Kuzmina, I.Y. Kuzmina	240
Application of cryopreserved umbilical cord blood and placenta-derived products in the treatment of infertility in a patient with diminished ovarian reserve. Case report A. Feskova, O. Feskov, L. Konoplia, Ye. Zhylykova, I. Feskova, O. Blazhko	241
Biochemical markers of cholestasis in rats with acetaminophen-induced intoxication after partial hepatectomy. H.P. Kopylchuk, I.M. Nykolaichuk, M.S. Ursatyi	241
Efficacy of cryotherapy in recovery from muscle injuries: a systematic review. V.H. Dzhyvak, N.V. Krulyk	242
Impact of hyaluronic acid on healing of cold wounds. A.A. Seliuta, G.O. Kovalov, H.L. Poliakov, Gurina T.M.	242
The effect of intermittent cold exposure on the level of reactive oxygen species production in erythrocytes of rats with induced polycystic ovary syndrome. Ye.A. Hromko, M.V. Zhulikova, M.S. Myroshnychenko, O.A. Nakonechna	243
Study of the permeability of the plasma membrane of human erythrocytes for DMSO molecules in the presence of PVA of various concentrations. Ya.V. Hvozdiuk, S.Ye. Kovalenko, T.M. Gurina	243
Effect of synthetic leu-enkephalin on the lipid profile in homeothermic animals under conditions of chronic cold stress. V.H. Mirnyy, N.M. Moisieieva, Yu.S. Akhatova, O.L. Gorina	244
Membrane destabilization by Gramicidin S: evaluating its compatibility with cryoprotective protocols. I.A. Perepelitsa, V.P. Berest	244

Evaluation of the impact of hypoxic conditions on the viability of spermatozoa after capacitation and cryopreservation. <i>O.I. Klymukhina, M.P. Petrushko</i>	245
Fish reproductive cells collection of the Institute for Problems of Cryobiology and Cryomedicine of the NAS of Ukraine: history, significance and perspectives. <i>A.M. Khomenko, K.S. Fomenko, V.V. Cherepanov</i>	245
Study of the physical properties of hydrogel films for low-temperature storage of microorganisms. <i>O.V. Zubkov, O.V. Trufanov</i>	246
Hormonal stimulation of silver crucian carp using a combination of surfagon (GnRH) and metoclopramide for the reintroduction of rare fish species based on cryobank resources. <i>K.S. Fomenko, A.M. Khomenko, D.A. Ostras</i>	246
Evaluation of the effect of various cryoprotectants on the resistance of canine erythrocytes to mechanical stress. <i>K.R. Hrebeniuk, O.M. Denysova</i>	247
Cryopreservation of oocytes as a method of implementing reproductive plans in women with cervical cancer. <i>V.R. Dorofieieva, N.V. Kapustnyk</i>	247
Lipid profile of spontaneously hypertensive rats after application of rhythmic extreme cryoeffect and conditioned medium of mesenchymal stromal cells. <i>I.V. Kandybko, L.A. Syrotenko</i>	248
Temperature-adapted invasive species of aquarium invertebrates as a threat to the local fauna of Kharkiv Region (Ukraine). <i>S.A. Sidorovskiy</i>	248
Biological activity of an aqueous solution of fullerene C ₆₀ molecules. <i>M. Pohribnyi, M. Vinnikov</i>	249
Effect of different yolk treatments on cold resistance of boar semen. <i>I.M. Martyniuk, O.V. Akimov, A.P. Paliy, O.V. Pavlichenko</i>	249
Application of cryopreserved placental polypeptide complex in murine acubarotrauma model. <i>D.O. Salnykov, A.A. Skoryk, M.V. Shevchenko, I.Y. Shcheniavskiy, O.V. Chub, S.A. Voitenko, O.I. Osetsky</i>	250
The role of nanobiotechnology in improving cryopreservation methods for cells and tissues. <i>A.V. Dvinskykh, N.V. Khokhlenkova, O.S. Kalyuzhna, N.V. Dvinskykh</i>	250
