

problems of cryobiology and cryomedicine

contents

review

Goltsev A.M., Bondarovich M.O., Babenko N.M., Gaevska Yu.O., Dubrava T.G., Ostankov M.V. Use of nano-materials in cryobiology and cryomedicine..... 313

original contributions

theoretical and experimental cryobiology

Shpakova N.M., Orlova N.V. About the mechanism of mammalian erythrocytes osmotic stability..... 331

cryopreservation of biological resources

Isaenko O. Yu. Post-thaw preservation of anti-microbial *Lactobacillus rhamnosus* and *Saccharomyces boulardii* metabolite complexes..... 343

cryomedicine, clinical and experimental transplantology

Kovalov G.O., Gordienko E.Yu., Fomenko Yu.V., Shustakova G.V., Kiporenko P.V., Olefirenko O.O. Dynamics of freezing and warming of soft tissues with short-term effect on skin with cryoapplicator..... 359

Lomakin I.I., Kudokotseva O.V., Babiichuk V.G., Kryshchal Ye.V. Impact of craniocerebral hypothermia and cryopreserved cord blood on reproductive function of male rats with chronic alcohol intoxication..... 369

short communication

Kliushnykov Ie.V. Pregnancy rate after transfer of cryopreserved embryos to overweight women..... 380

Valkova L.D., Andreeva P.M., Milachich T.V., Bandreva B.R., Penkova P.V., Bochev I. M., Petkova B.D., Timeva T.N., Shterev A.D. Determination of optimal number of vitrified human autologous or donor oocytes needed for one live birth..... 384

chronicles

Celebrating the 70th Anniversary of Professor Olga I. Gordienko..... 389

In memoriam: Valery A. Bondarenko (March 17, 1947– October 11, 2020)..... 390

Key Word Index Vol. 30..... 395

Table of Contents Vol. 30..... 402

Instructions for Authors..... 408
