vol. 34, issue 2

problems of cryobiology and cryomedicine

contents

review

Měříčka P., Jandová M., Fuller B., Gregor J., Studená Š., Lánská M., Vokurková D., Jankovičová K., Fátorová I., Brandejs D., Guňka I., Benda A., Sabó J., Janoušek L., Špaček M. The modern cryobank as key support for clinical cell and tissue transplantation programmes..... 71

original contributions

theoretical and experimental cryobiology

Kovalenko G.V., Strybul T.F., Rebrova N.V., Shevchenko N.O. Wheat seed germination after low-temperature treatment or ozonation..... 113

Vinnikova O.I., Drofa A.T., Raievska I.M. Impact of bacterization with *Anabaena flos-aquae* and *Pseudomonas putida* and salicylic acid treatment on cold resistance in leguminous plants..... 125

short communication

Lomako V.V., Shylo O.V., Samokhina L.M. Pituitary-thyroid system in rats of different ages under short-term cold exposures..... 143

chronicles

Green C.J., Goltsev A.M., Fuller B.J., Fleck R.A., Smolyaninova Ye.I., Lutsenko D.G., Pushkova Ye.M. To the 70th anniversary of Ukraine's membership in UNESCO. UNESCO Chair in Cryobiology: milestones, experience, results, perspectives..... 150

Instructions for Authors..... 160
